Dimensions:

Length:	3200 mm
Width:	1460 mm
Hight:	1230 mm
Wheel base:	2300 mm
Curb weight:	<300 kg

Power:

Motor:	20 kW
Max speed:	110 km/h
Type:	Li-Ion
Capacity:	8 kWh
Range:	100 km

General:

Category:	L5e
Driver license:	Car (In Sweden B)
Price:	170 000 SEK Incl VAT

Problem

Often only one person drives their car with 5 seats for shorter distances, transporting mainly the machine itself.

2300 kg
95 %
1 km/kWh
13 % energy efficiency

100 kg
5 %

Solution

Ecoist develops the Tian, that will be 15 times more energy efficient than cars on the road today. A two-seater tandem, three wheeler that can reach 110km/h and has 100km range to start with. The body, made in natural fiber composite is optimized to have very low air resistance and the rigid steel chassis handles the forces from driving.
